

Multi-Channel Coreless Pipe Electrodes (8-Type)

- Highest precision copper pipe electrodes for EDM hole drilling
- Size: 2.1mm-6.0mm (0.1mm increments)*
- Length : 300mm (approximately 12")**

2-Channel Coreless Pipe Electrodes (N-Type)

- Highest precision copper pipe electrodes for EDM hole drilling
- Size: 0.4mm-3.0mm (0.1mm increments)*
- Length : 300mm (approximately 12")**

Single-Channel Pipe Electrodes (O-Type)

- Highest precision copper pipe electrodes for EDM hole drilling
- Size: 0.1mm-10.0mm (0.1mm increments)*
- Length : 300mm (approximately 12")**

(Economy) Single-Channel Pipe Electrodes (O-Type)

- Economy line copper pipe electrodes for EDM hole drilling
- Size: 0.5mm-3.0mm (0.1mm increments)*
- Length : 300mm (approximately 12")**

*Other sizes are available. Please call for pricing and availability.
 **Other lengths are available. Please call for pricing and availability.

Dielectric Resin Tanks and Regenerations

Regeneration Program
Hightech Coupon

1. Purchase two or more DI bottles from Hightech

2. Order a DI coupon

3. Drain the used tank

4. Ship the tank to the authorized regeneration facility with the DI coupon

5. Allow 7-14 days for regeneration and return shipping

6. Your newly regenerated DI tank arrives at your facility

7. Order an additional DI coupon

Dielectric Resin Features

- Industrial-grade fiberglass spun DI bottles
- High-grade mixed-bed DI resin
- EPA-licensed regeneration facilities
- All bottles are 35" tall
- Choose between 8" or 10" wide DI bottles
- Optional water conductivity lights available
- Optional make-up water kits available
- Optional airline water removal kit available
